— We offer volunteer and financial support for the Village’s special projects.
— We maintain a special library collection dedicated to the history of Frederick Law Olmsted.
— We conduct informative walking tours of Riverside for residents and visitors.
— We arrange and conduct educational off-site field trips.
— We offer financial support to the ecology clubs of local schools.
— We inspire children to write poetry through an annual Olmsted-related poetry contest.
— We host lectures pertaining to landscape architecture, the history of Riverside, and the mission of the Olmsted Society.
— We host housewalks that bring visitors near and far to enjoy all that our unique village has to offer.

Most importantly, we are Riverside’s only resource dedicated to preserving, promoting, and educating the community about our most valuable asset: our connection to America’s forefather of landscape architecture, Frederick Law Olmsted.

The Frederick Law Olmsted Society of Riverside

The Frederick Law Olmsted Society of Riverside
In 1868, landscape architect Frederick Law Olmsted and his partner, Calvert Vaux, were commissioned to plan a unique community just west of Chicago, Illinois. The result was Riverside, a beautiful community along the Des Plaines River, complete with curving lanes, abundant greenery, and gas street lights.

One hundred years later, the Frederick Law Olmsted Society of Riverside was formed by a small group of residents trying to get Riverside listed on the National Register of Historic Places. Their efforts were successful, and the organization has continued on for more than 40 years focused on preserving the Olmsted landscape that makes the Village of Riverside so special.

Today, The Frederick Law Olmsted Society is dedicated to sustaining Olmsted’s vision for Riverside for generations to come. Its members are guided by his concern for humanity, nature, sense of community and the innovative and thoughtful essence of his work.
